Connect iCloud account to the coach calendar

To connect to the iCloud account the app-specific password has to be used instead of the normal user password.

Step 1: login to iCloud account from https://www.icloud.com/
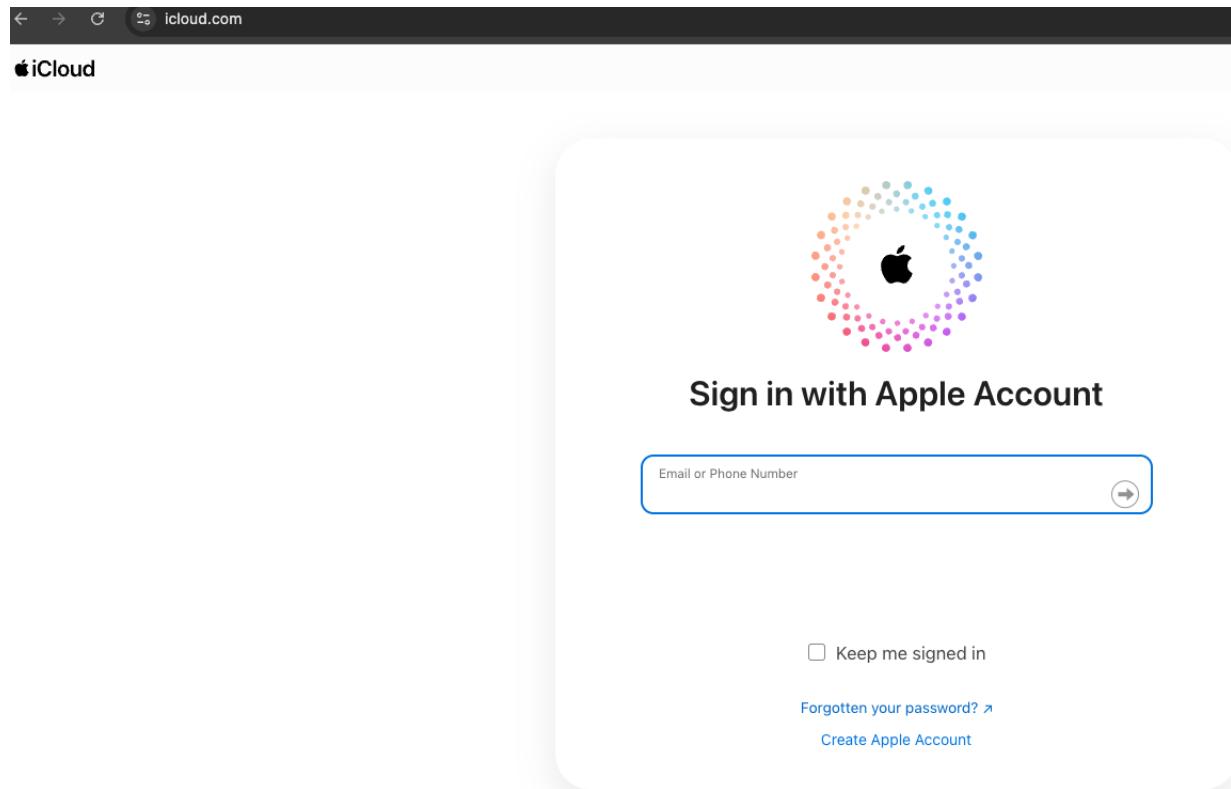

Step 2: After logging in, click the user avatar on the top right and then click "Manage Apple Account" to open the account settings
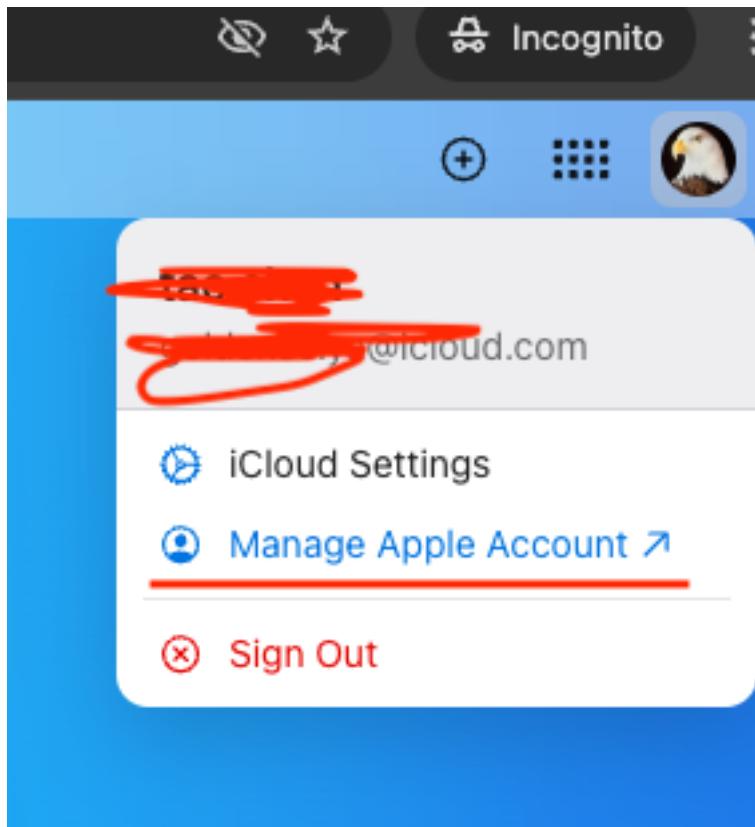

Step 3: Click "App-specific Passwords" to open the UI to generate the app-specific password

Step 3: Click "Generate an app-specific password"

×

App-Specific Passwords

No passwords

Use an app-specific password to sign in to an app or service not provided by Apple.

About app-specific passwords ↗

Generate an app-specific password

Step 4: Input the name of the app-specific password (any name)

Generate App-Specific Password

Use an app-specific password to sign in to an app or service not provided by Apple.

e.g. Bills

Cancel   Create

Step 5: Input the login password of the iCloud account to confirm

Confirm Your Password

For your security, please enter the password for:

~~g_____a@icloud~~.com

password

• • • • • • • • • • • • |

Cancel   Continue
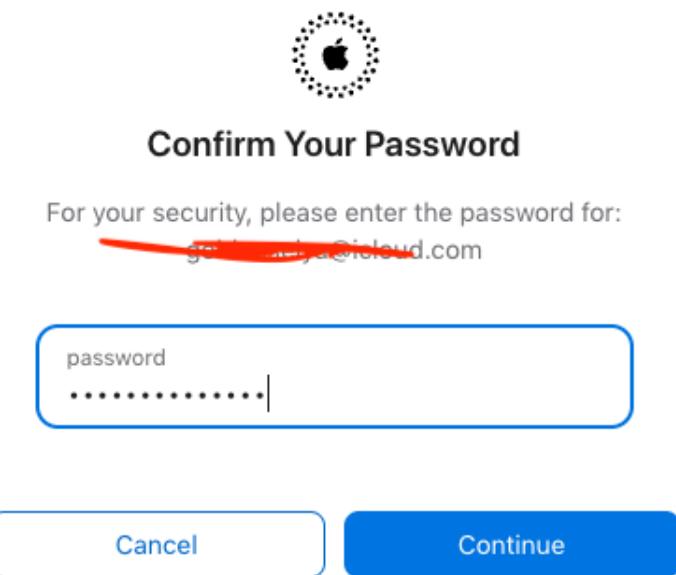

Step 6: The new app-specific password will be displayed on the UI, copy and paste it somewhere

Your app-specific password is:

~~d__i_____qk~~

Enter this password into the password field of the app you would like to sign in to. Password is case-sensitive.

Done
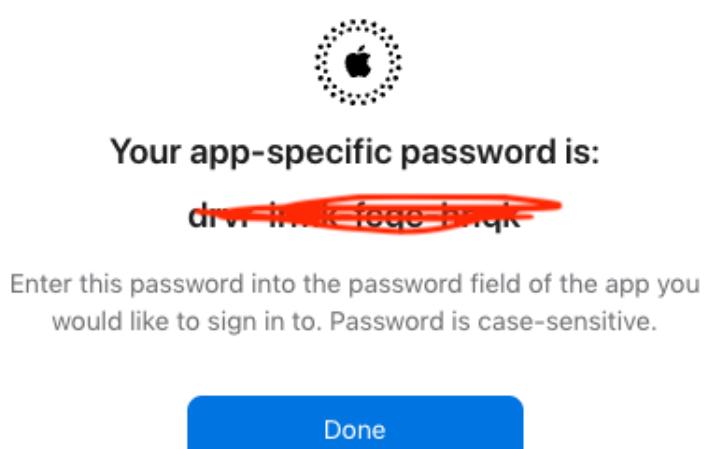

Step 7: Connect to the iCloud account from the portal by the iCloud email and the app-specific password

Connect to iCloud

Please login to your iCloud account in order to validate the connection.
